

NGS

The NGS in numbers

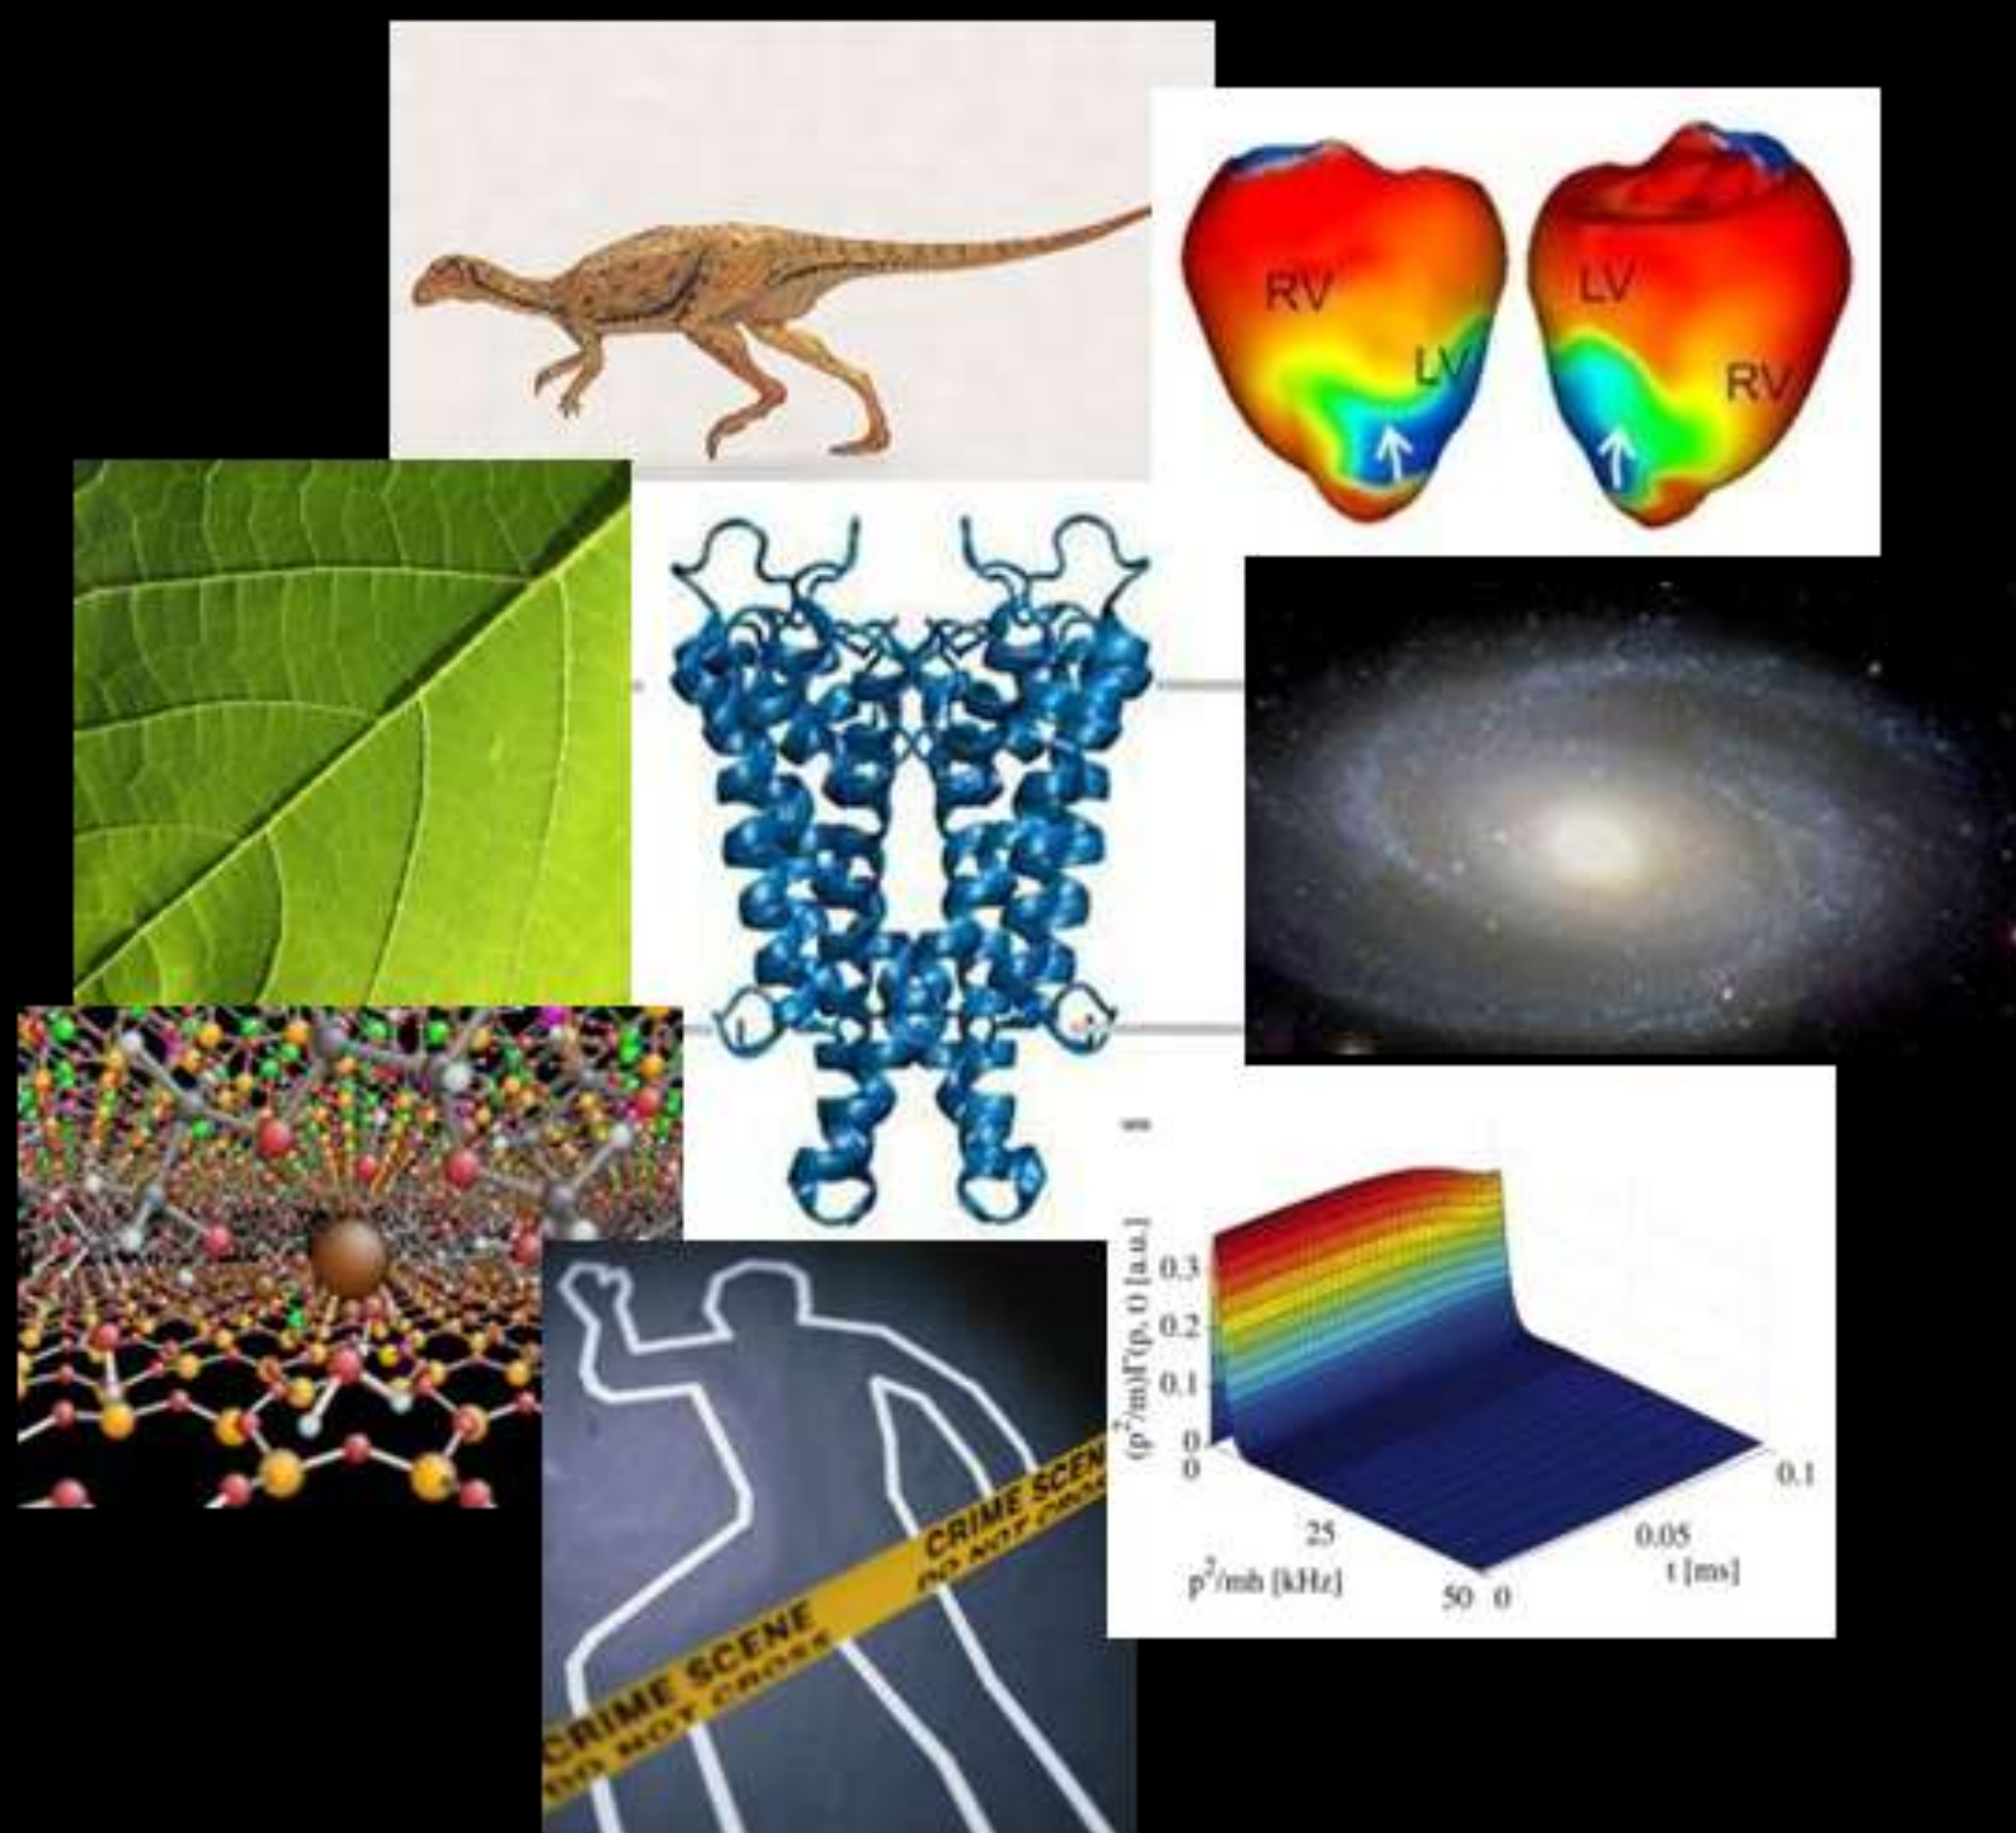

The goal of the NGS is to deliver a production quality national e-infrastructure in support of academic research across all Higher Education Institutes (HEIs) in the UK.

Who are we?

- 25 member institutes
- 33 heterogeneous resources

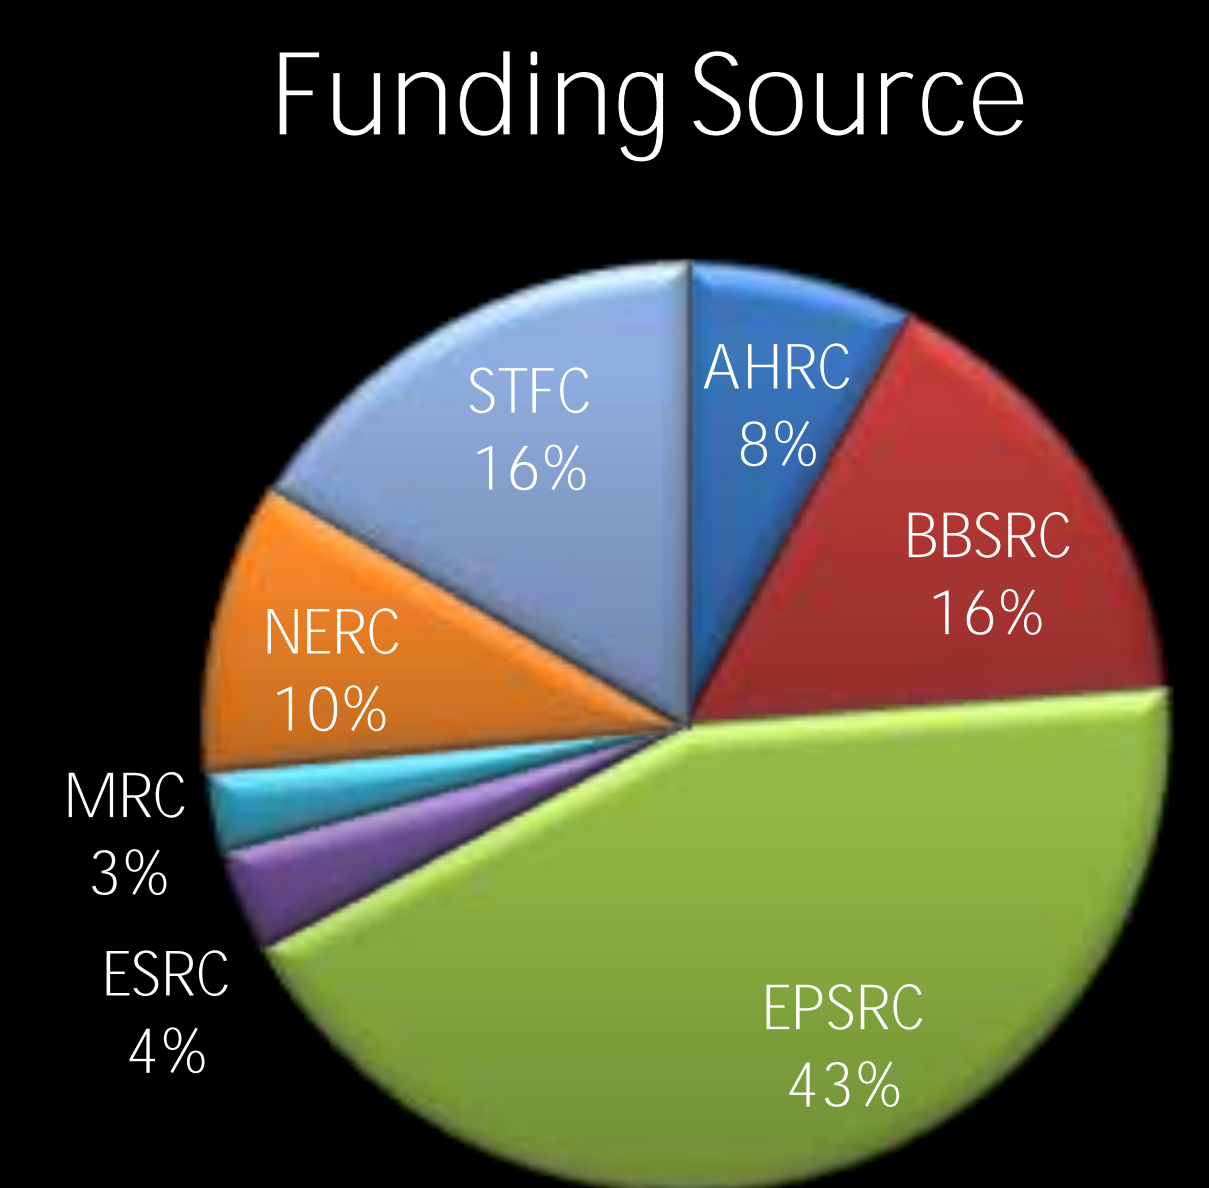

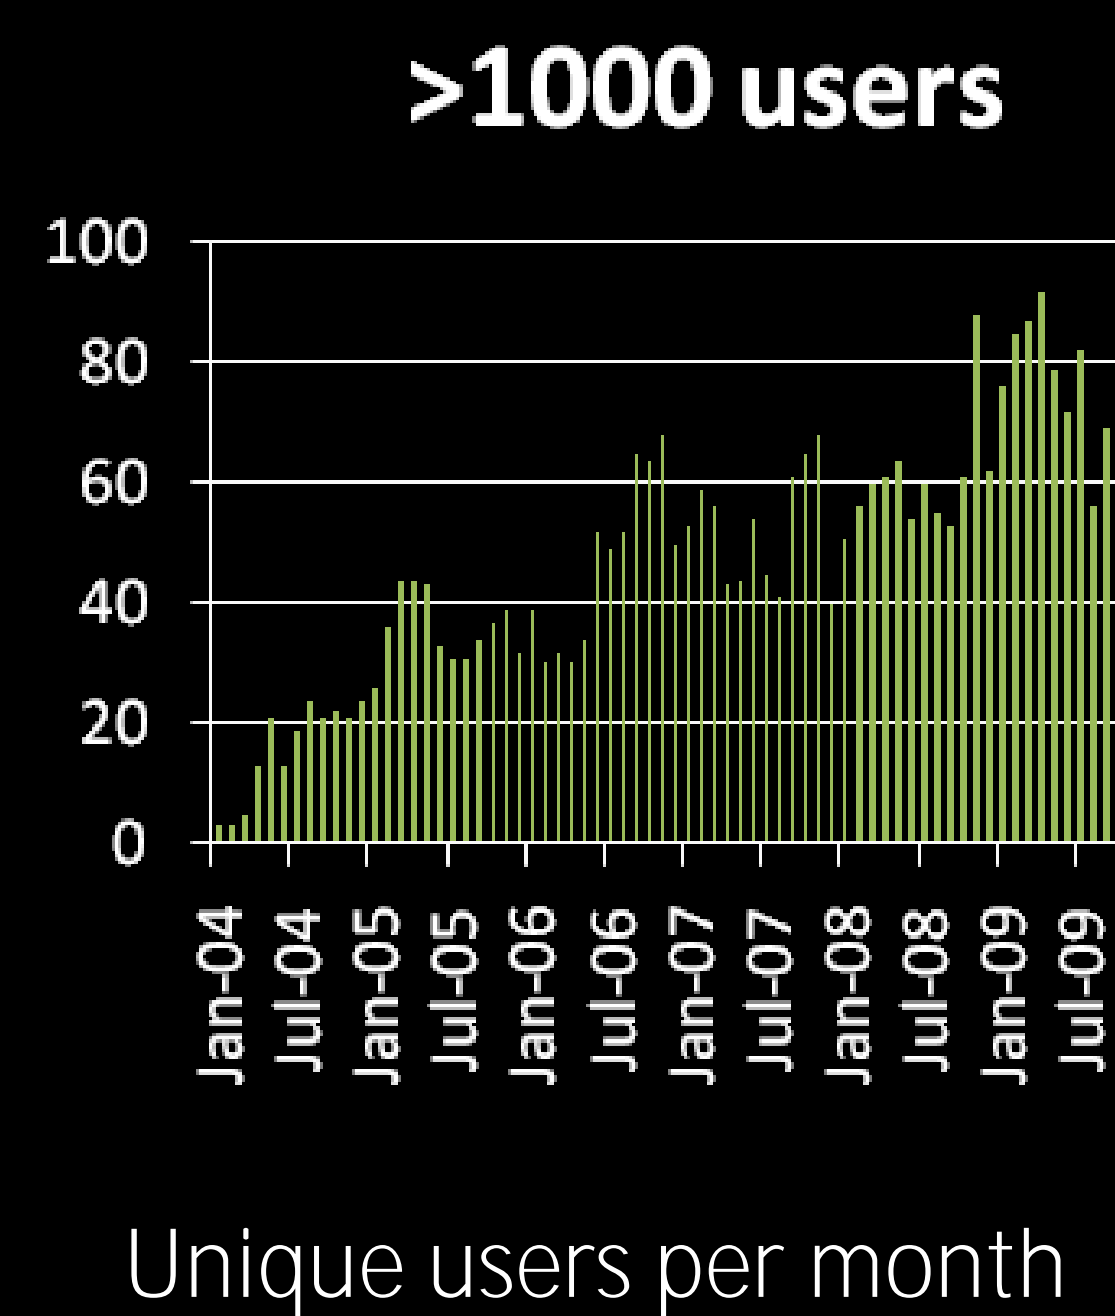

- 15,000 processing cores
- databases, service hosting,
- clouds, virtualization,
- visualization

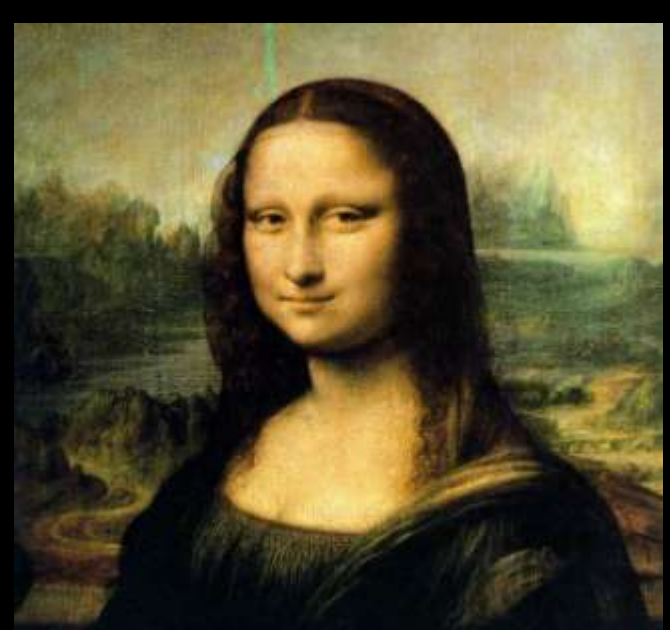

Who are our users?

- diverse user communities
- UK researchers and their collaborators

Last year ~ 5 million CPU hrs used

 > 75 applications installed

That's the length of time between Leonardo Da Vinci painting the Mona Lisa and today

~ 900,000 jobs processed

Interoperate globally
